OBJECTIVE

B.Tech CSE graduate with strong foundation in Java, Spring Boot, React.js, and PostgreSQL, gained through full-stack projects. Strong in Data Structures and Algorithms, Object-Oriented Programming and problem-solving with an interest in software development role and backend engineering.

EDUCATION

B.Tech in Computer Science and Engineering
Jaipur Engineering College and Research Centre, Jaipur

2022 – 2026
CGPA: 8.7

TRAINING & INTERNSHIP

EDI Trainee Intern — Programmers.io

Jan 2026 – Present

- Worked on enterprise application workflows involving data processing, system integration, and transaction management.
- Developed and maintained RPGLE programs in the IBM i (AS400) environment to support business requirements.
- Utilized SQL for data retrieval, validation, and database operations across enterprise systems.
- Assisted in designing and maintaining data mappings and integration workflows to ensure accurate and efficient data exchange.

SKILLS

- **Languages:** Java, Python, SQL, HTML/CSS, JavaScript
- **Technologies:** React.js, Spring Boot, REST APIs, JWT Authentication
- **Tools:** IntelliJ IDEA, VS Code, GitHub, Git, Postman
- **Database:** PostgreSQL
- **Coursework:** Data Structures & Algorithm, Object Oriented Programming (OOPs), Database Management System(DBMS)

PROJECTS

Job Tracker Application —  GitHub

April 2026

- Implemented JWT-based authentication, secure REST APIs, job status tracking (Applied, Interview, Selected), interview scheduling, and notes management.
- Designed a progress tracking dashboard with interview reminders and responsive dark-mode support to help users efficiently manage job applications.
- **Technologies Used:** Java, Spring Boot, React.js, PostgreSQL, JWT, REST APIs, GitHub.

Food Ordering Website —  GitHub

March 2025

- Built a responsive food ordering web app with category-based filtering, animated sliders, dark mode, and cart system with GST-based pricing
- Implemented login/signup popup with validation and a Zomato-style profile page featuring activity and appearance settings.
- **Technologies Used:** React.js, Javascript, HTML, CSS

CERTIFICATES & EXTRACURRICULAR

- Solved 250+ DSA problems on LeetCode, GeeksforGeeks, etc.
- Participated in LNM Hacks (Hackathon).
